

Dear Education Professional,

Educational Heroes Safety Campaign

Protecting our Frontline Educational Heroes to Allow our Kids to Learn

True Value Foundation (TVF) is focused on helping youth succeed with tools and resources to achieve their potential. Our children's greatest resources are their educators and school staff. To ensure that our children get their best educational experience under these trying circumstances, everything possible needs to be done to keep our educators and school staff safe.

In partnership with True Value retailers, the True Value Foundation is proud to announce that health and safety kits will be provided to schools across the country via the newly created Educational Heroes Safety Campaign.

Over 700 schools across the country will be awarded health and safety kits that will include hand-sanitizer, KN-95 masks, and hand-soap to help protect those educators and staff serving our youth.

Your school has been chosen to receive the free assortment of products.

The health and safety kit awards for schools across the nation will be administered by True Value Company through local True Value Retailers.

Working together, True Value Foundation, True Value retailers, and True Value Corporation will help keep our frontline educational heroes safe and your students learning.

For future needs we have attached a listing of items available from your local True Value Retailer.

Please reach out to them directly if you have any questions.

Thank you for all of your efforts keeping your teachers and students safe.

Sincerely,

The True Value Foundation
